

"We saved a great deal of time and money not having to worry about the products section of our website. We told soOlis which manufacturers we represent and they did the rest. I highly recommend them for any fitness distributors."  
 -John Levine, Fitness Brokers

**Find the Best YMCAs, Fitness Centers and Gyms**

Finding YMCAs and fitness centers on the internet is easy. The challenge with the local gyms comes when you are looking for something specific. At soOlis.com, we go beyond finding the YMCAs or fitness centers location; we let you decide what amenity is important to you.

Just select from the drop down menu and we will provide the local gym directory that offers that amenity in your area. If you can't find the amenity listed in the health clubs locator just type it in the blank box and soOlis.com will search the local area clubs and find local gyms that have the amenity important to you. For example, if you are looking for a boxing gym, just type in boxing in the blank, and soOlis.com will find all the YMCAs, gyms and fitness centers that offer boxing.

**For Gym Locations, Health Clubs & Fitness Gym Directory**

Remember soOlis.com is not just a local gym finder, but a site that provides quality gym locations that meet your needs.
